## What our clients say about us.

"Thompsons have recently built and installed an outdoor classroom at my school. Henry was a lovely, genuine man who obviously cares very much about the projects he creates. Definitely recommend."

**Rosewood Academy**

"Henry designed and fitted a long boat for the children to use in their play area. The boat has been a success with pupils and staff alike! Henry was brilliant- great communication and he listened to the brief. Henry was efficient and acted quickly, although the standard was not compromised! Would recommend all day long! Thank you."

**Mo Mowlam Academy**

"We've had a fantastic result with our treehouse and it was a pleasure working with Henry from the initial design through to completion. The quality of his work is excellent and I agree with other people's comments that he cares very much about what he does and about getting the best end result."

**Battersby Junction**
